

[SEQ CHAPTER \h \r 1]Meeting/Briefing Request Form for Administrator Pruitt

Today's Date: May 19, 2017

Requesting Office: Office of Research and Development (ORD)

Title of the Meeting: PFAS Priorities

Purpose: To get Administrator Pruitt's feedback on proposed EPA priorities related to PFAS

Role of the Administrator: Provide feedback on the proposed priorities

Background: Per- and polyfluoroalkylated substances (PFAS) are a large family of man-made, globally-distributed chemicals that include perfluorooctanoic acid (PFOA) and perfluorooctane sulfonate (PFOS). To date, PFAS contamination has been identified across the country, and there is concern about potential adverse health effects of PFAS in exposed populations. EPA is working with federal partners, states, tribes, communities, and industry to address public concerns related to PFAS. Senior leaders from across EPA (ORD; OW; OLEM; OCSPP; Regions 1, 3, and 4) are recommending that EPA's efforts focus four priorities areas, allowing EPA to best support efforts by Regions, States, and other Federal agencies.

Last possible date for the meeting: June 23, 2017 (We anticipate scheduling a pre-brief with Ryan Jackson before briefing the Administrator.)

Is the meeting urgent and if so, why? Ryan Jackson has requested that this briefing occur before the upcoming budget hearings, which are likely to be at the end of June.
